PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building production-ready web applications using React, Node.js, Express.js, and Laravel. Skilled in designing RESTful APIs, integrating databases (MySQL, MongoDB), and shipping responsive UIs with Tailwind CSS. Complements software skills with a solid IT background — hardware troubleshooting, network configuration, and Linux administration — enabling fast, independent problem resolution across the stack.

EXPERIENCE

- IT Technician - Intern**, *Thika Technical Institute* 06/2024 – 09/2024
- Diagnosed and resolved hardware and software faults across 50+ student and staff machines, reducing average resolution time.
 - Installed and configured Windows OS environments, ensuring consistent software setups across lab computers.
 - Performed network configuration and troubleshooting for LAN connectivity, supporting uninterrupted institute operations.
 - Documented recurring issues and solutions, building an internal reference that cut repeat-fault resolution time.

PROJECTS

- Her Delight Closet** 🏠, — *Laravel · Tailwind CSS · JavaScript*
- Built a full-featured e-commerce platform for selling shoes and bags, with product listings, cart, and checkout flow.
 - Implemented backend logic using Laravel MVC architecture with MySQL for product and order management.
 - Designed a responsive, mobile-first storefront using Tailwind CSS with custom component styling.
- Worldwise** 🌐, — *React · Node.js · CSS*
- Developed an interactive travel-tracking app allowing users to log and visualize countries and cities they have visited.
 - Integrated a map interface with dynamic markers and geolocation for an intuitive, data-driven user experience.
 - Managed application state with React Context API and hooks, and set up a local Node.js mock backend for data persistence.

EDUCATION
